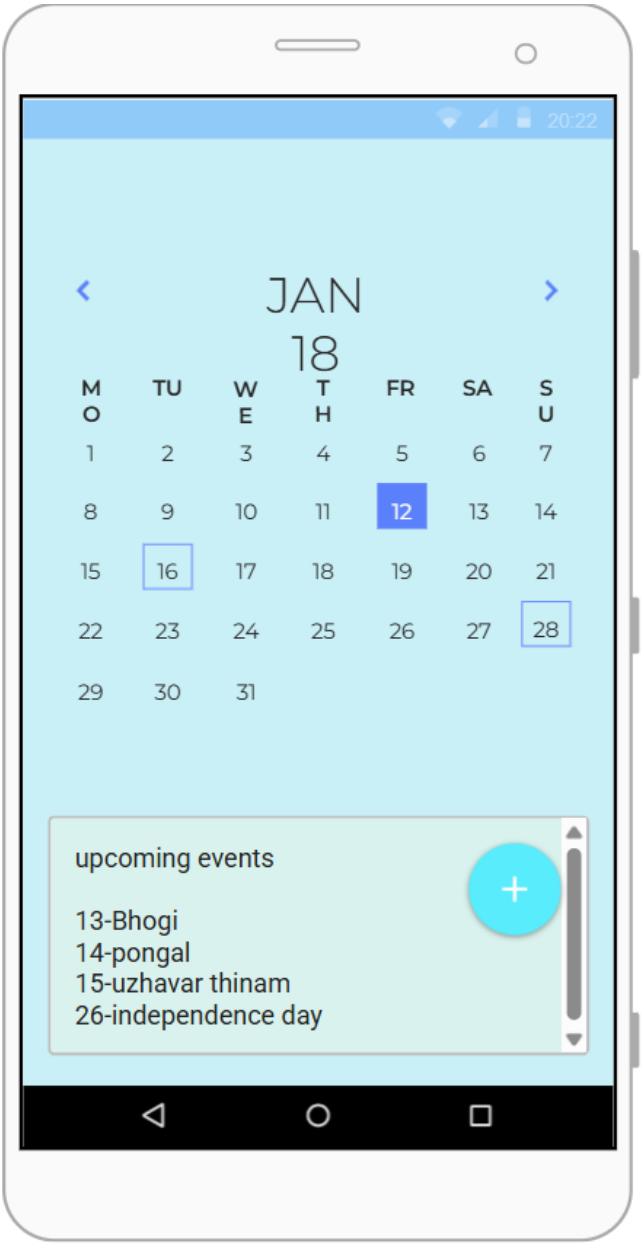
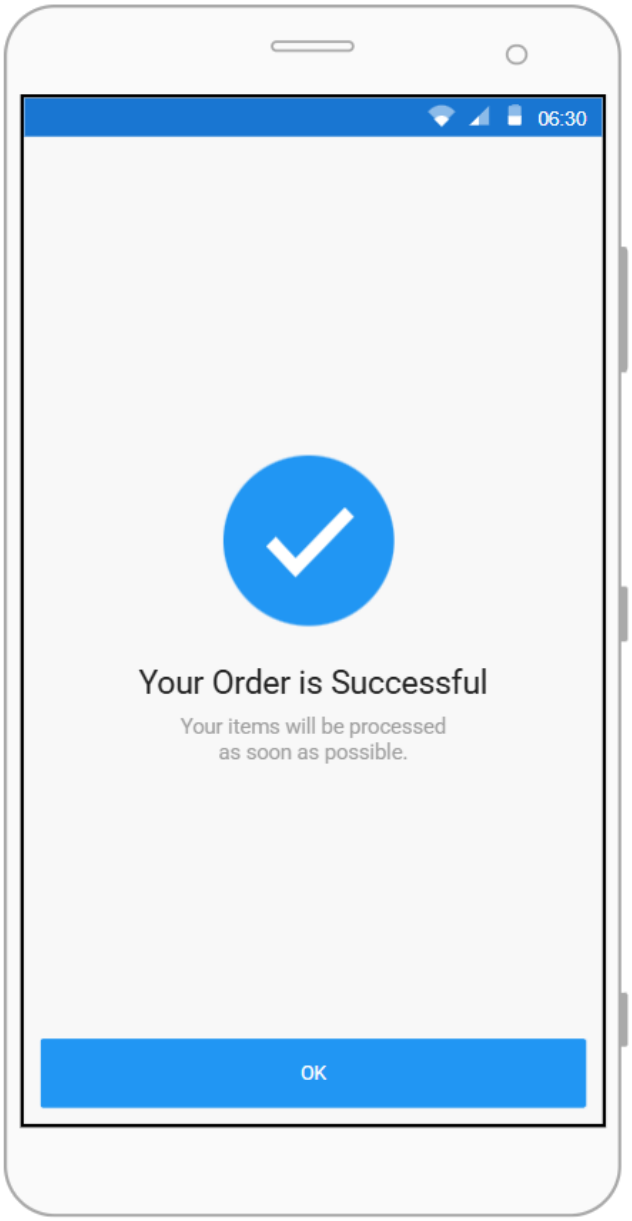
Familiar elements:



□ Calendar Layout

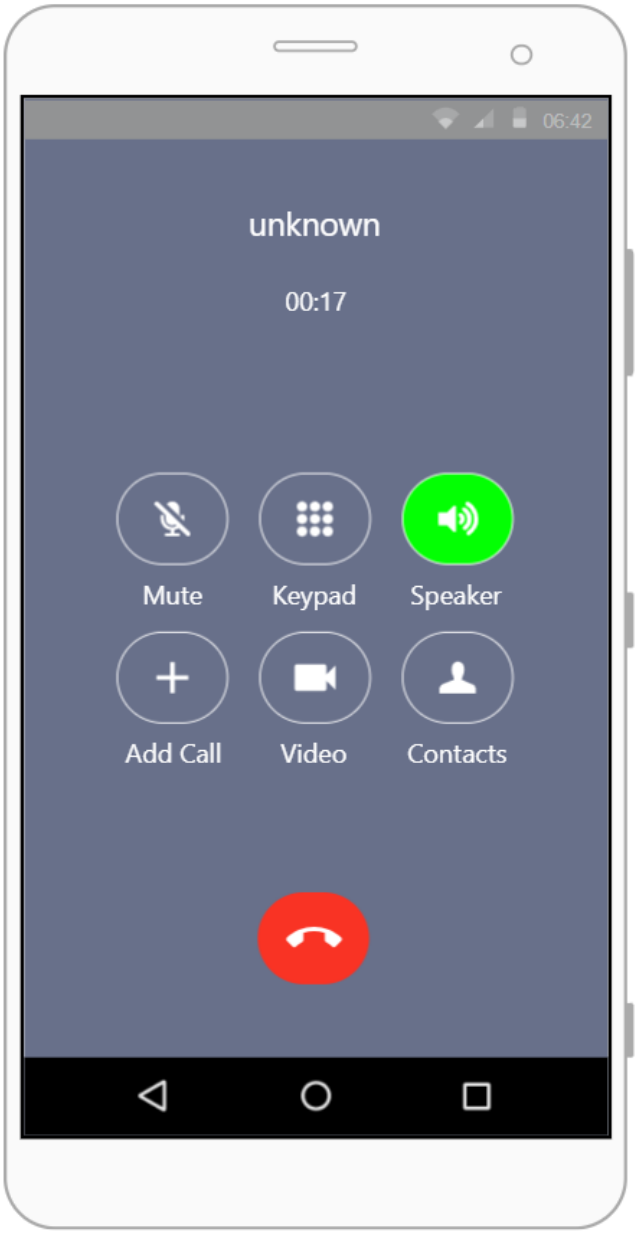
- **Month title (JAN)** → standard calendar heading
- **Date grid format** → familiar monthly calendar structure
- **Left & right arrows** → move to previous/next month

- **Status bar icons** → battery, signal, time indicators
- **Android navigation buttons** → back, home, recent apps
- **“Upcoming events” section** → common scheduling feature
- **Card-style container** → separates content visually
- **Text list format** → easy-to-read event entries



□ Status & Feedback Indicators

- **Checkmark (✓) success icon** → universally indicates completion/success
- **Success message text** → confirms task completion
- **Supporting message** → explains next step to the user
- **Centered content layout** → common for confirmations & alerts
- **Minimal design with focus on message** → improves readability
- **Blue primary color** → commonly used for positive actions

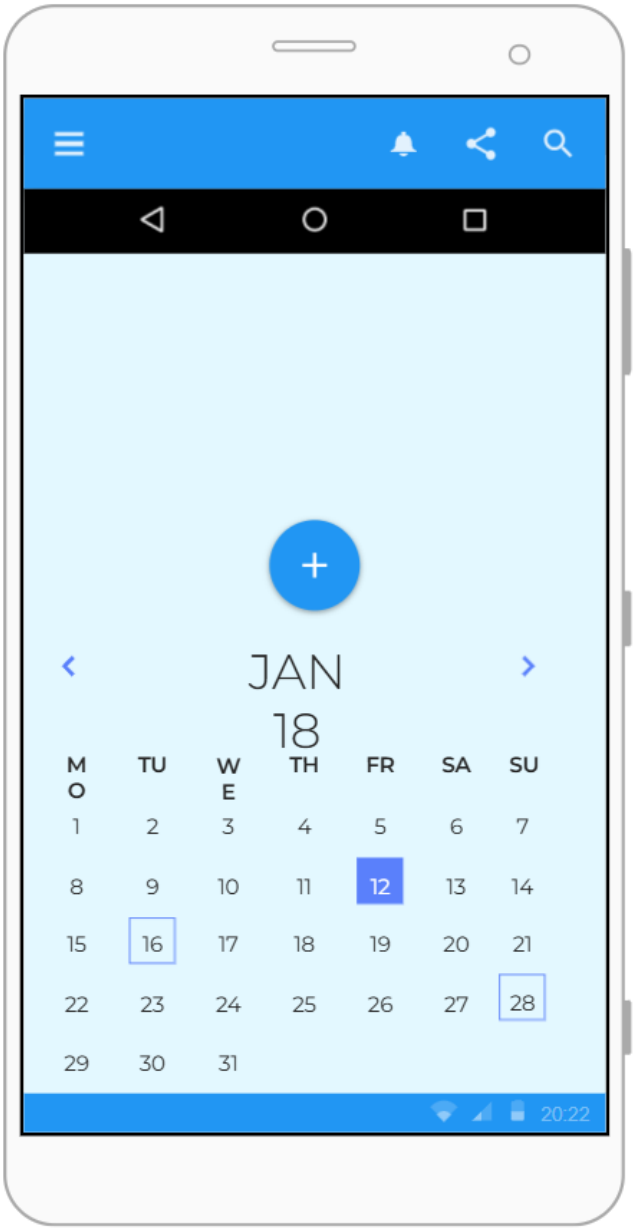


Call Information Display

- **Caller name ("unknown")** → identifies incoming/outgoing call**Mute icon** → turns microphone off
- **Keypad icon** → opens dial pad during call
- **Speaker icon** → activates loudspeaker
- **Add call (+)** → add another caller
- **Video icon** → switch to video call

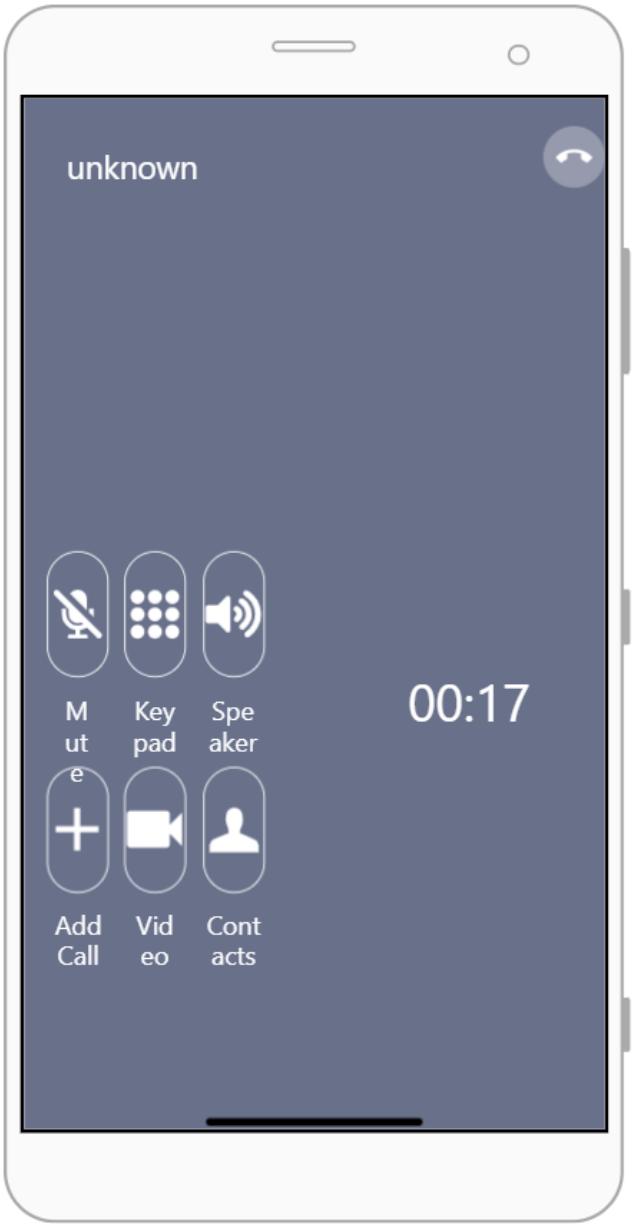
- **Contacts icon** → access contact list
- **Call duration timer** → shows ongoing call time

Unfamiliar elements:



□ Custom Layout Choices

- **Floating (+) button placed in the center**
  → New users may not know what action the button performs.
- **No visible “Add Event” label for + button**
  → Usually FAB appears at the bottom-right; center placement may confuse first
- **Small side arrows without labels**
  → Some users may not realize they switch months. -time users.
- **Large empty space above calendar**
  → Users may not understand its purpose (reserved area without visible function).



□ Unusual Layout & Positioning

- **Call control buttons aligned to the left side**
  → Standard call screens center controls; side alignment may feel unfamiliar.
- **Call timer placed on the right side**
  → Users usually expect the timer near the top center.

- **Small end-call icon at the top-right corner**
  → Typically a large red button at the bottom; this placement may be hard to notice.
